Integrity: What’s the Price?
Job 2:1-10, 1 Chronicles 29:10-19, 1 Kings 9:1-9, 11:1-4

Questions

1. In what ways are people you know compromising their integrity?

2. “Integrity is a one-to-one correlation between my Bible, my belief, and my behavior.” AGREE/DISAGREE. Explain your answer.

3. Today we saw Job’s integrity tested by suffering, Solomon’s integrity tested by prosperity, and David’s integrity tested by both! According to 1 Kings 11:1-4, why did Solomon fail to keep his integrity? Can you apply this in any way to your own life?

What does it mean to be a man of integrity? Integrity means living by your code. Integrity means being undivided—a man of integrity doesn’t waver between two opinions. He doesn’t fold under pressure. Other men under pressure may make mistakes, but pressure only makes him more determined to do the right thing.

A man of integrity stands his ground. He is not double-minded, nor easily swayed. His loyalties are not split. He cannot be corrupted. He has decided in advance to hold his position, no matter what the cost. He takes personal responsibility for his inward character and outward conduct, while trusting Christ to empower him through the Holy Spirit. Incorruptible, sound, complete. Not flawless, but determined in Christ.
